UNION BANK.

Report by the Acting Secretary of the Transactions of the Union Bank, for the half year from 1st July to 31st December, 1838.

I have to congratulate the Proprietors, on the prosperity which continues to attend the transactions of the Bank. The accounts on the table, consisting of the Trustees Account, Balance Sheet, and Statement of Profit and Loss, exhibit a full and satisfactory view of its operations, for the last half year. However, although during that period, a larger business has been done, yet in consequence of the necessary reductions made in the rates of discount, and the division of profits over a doubled number of Shares, the Dividend is less than it has been for several preceding years.

The net amount of profit realised for that period is, Co's Rs. 3,21,990 14 7
and the undivided Surplus of the previous half year, 22,613 12 9

Give Co's Rs. 3,44,604 11 4

which divided on a paid up capital of Co's Rs. 71,32,676, affords a dividend of 10 per Cent., (which is the same rate now paying by the Bank of Bengal,) leaving a reserved fund of Co's Rs. 31,902-1-0. Eleven per Cent. might now be divided, leaving a small surplus of Rs. 631; but the Directors recommend a Dividend of 10 per Cent., or 50 Rs. per share, to be made at present.

The whole of the augmented capital of January, 1838, has been taken up, and of the 40 Lac declared in July last, the more than 8 Lac remain unpaid, which amount is applicable principally to distant proprietors, who have been allowed sufficient time for completing their contributions.

A considerable increase has taken place in the number of proprietors who now amount to 410.

It is satisfactory to observe, that the circulation of the notes of the Bank has become more extended; the highest amount during the last half year being 608,884, and the lowest 306,192.

The Directors have appointed Mr. G. S. Dick to the office of the Bank's Agent at Minzapore, and will forthwith make the necessary arrangements for his proceeding thither.

SUPPLEMENT TO The Calcutta Gazette.

No. 90.
FORT WILLIAM,
GENERAL DEPARTMENT,
THE 9TH JANUARY, 1839.

The following Dispatch, No. 4 of 1838, from the Hon'ble the Court of Directors in the Marine Department, dated the 12th September, together with the Explanation and Sketch therein mentioned, is published for general information.

The Governments of the different Presidencies have been requested to take steps to procure the Establishment of Tide Gauges, on the plan mentioned, and the registration of the Tides at the points and in the manner desired, and Scientific persons interested in the subject are invited to adopt a similar plan for observing and registering the rise and fall of Tides, at any places where the opportunity may be afforded them of making such observations

By Order of the Hon'ble the President in Council,
H. T. PRINSEP,
Secy. to the Govt. of India.

MARINE DEPARTMENT.
No 4 of 1838.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

In our Dispatch in the Public Department dated the 24th January last, (No. 1) we directed you to cause a series of Tide Observations to be made upon an uniform principle at various points on the Coast of India, and in order that such Registry of Tides may be conducted simultaneously with like experiments instituted for the same objects throughout the British Islands and the Maritime States of Europe, we have been at considerable pains to ascertain from those most competent to afford information what description of instruments, apparatus, and process have been generally agreed upon and considered best adapted to insure

*Memorandum of the necessary
Instruments at each station.*

A Barometer with a Daniel's or Leslie's Hygrometer, Thermometer and Sempesometer; Whewell's Anemometer, a Box Chronometer, a Variation Transit, with Gambey's Dip Circle, Gauss' Instrument for the Diurnal Variation.

uniform and correct results. We have now to call your attention to the simple expedients which they have recommended to our acceptance, for such comparatively we consider the apparatus specified in the margin, for seven principal and as many as 12 intermediate stations of less note, including also the requisite instruments for observing the Time and Meteorological phenomena.

2. The nature of the observations contemplated do not call for Buildings of a costly or permanent description. At the principal points it may be advisable that the observations should extend through two or at most three entire years in view to the Registry of the changes incident to two or it may be three opposite Monsoons; at all the remaining points a single series of observations, during opposite Monsoons, will suffice for every purpose, practical and philosophical.

3. We are further advised since the observations are to be limited in duration, that they may be carried on consecutively at a certain number of places at a time so that the very same apparatus and instruments employed in the one instance may be transferred at the expiration of such term, and set up with little expense at the remaining stations by the respective parties instructed in the former operations.

4. We have consulted the Lords Commissioners of the Admiralty as to the number and situation of the places where it may be most desirable to institute the more elaborate experiments, and direct accordingly that they may be confined to the following Ports; viz.

Mandue in the Gulf of Cutch.
Cochin or some Port near Cape Comorin.
Some Port near the head of the Bay of Bengal.
Some Port on the Coast of Ava.
Prince of Wales Island, Singapore and Malacca.
Bushire in Gulph of Persia.

5. Macao and Mocha, Suez or Cosseer in the Red Sea, have been also named, but we are doubtful of your means for conducting the observations, especially the more elaborate ones at those places.

6. Other experiments may be made with a simpler apparatus at eighteen intermediate points on the Coast.

7. It appears to us that the greatest difficulty consists in the selection of proper places, sheltered as much as possible from the effects of the external swell to which places the observer may at all times have convenient access, and the selection whereof must unquestionably be delegated to the officer on whom the general management will devolve.

8. In such localities however we are fully satisfied that self-registering Tide Gauges, constructed either upon the general principles of that invented by Mr. Mitchell, now in operation at Sheerness, or that invented by Mr. Bunt, Civil

Engineer, which is employed at Bristol, are alike applicable to the determination of every desideratum connected with the Theory of the Tides, and far better suited to such investigations than more complex and ingenious machinery which may be subject to many sources of instrumental error, or affected by circumstances peculiar to the climate.

9 If exceptions be taken to the former contrivance in respect of the deal Register Rod, they may be obviated by the substitution of a Tin Tube, or slender Metallic Rod, although we are informed that straight grained, well seasoned deal will not be liable to such irregular curvature or change of form as to affect the accuracy of the experiments, more particularly if coated over occasionally with paint or the common varnish procurable in every bazar.

10. The entire cost of this apparatus, together with the slight temporary superstructure for its reception, is calculated at £150 or £200. In India, where labour and materials are so much cheaper than in this country, the cost certainly ought not to exceed that sum. Of the other designed by Mr Bunt, which we are told is equally exact and efficacious we deem it unnecessary at present to speak more fully, as a description of it is now in course of publication in the Transactions of the Royal Society, who will decide upon its superior fitness.

11. The construction of either of these self-registering Tide Gauges being restricted to those places where it may be desirable to have continuous hourly observations, a much simpler contrivance has been suggested for the others, of which we transmit in the packet a description for your information.

12 It is sufficiently plain and easy of construction, the expense attending it therefore cannot be great. We are given to understand that even this in the hands of anyone who can note down the observations in writing will, with proper care and attention, afford data of considerable value to Science.

13 It is only necessary to remark further that the time and height of the Tide should invariably be stated and entered immediately in a proper record kept for that purpose, as little or no reliance can be placed on memory or loose memoranda in researches of this nature. The observations should be noted moreover according to mean time as given by a good watch or clock regulated for the place, and not according to solar time, or if the time be corrected by the sun, allowance should be made for the equation of time.

14. With these particulars it is desirable to combine Meteorological observations, with which view proper instruments will be furnished at an early opportunity, together with a complete Tide Gauge, and such portions for four other as may be made up at less expense in this country than in India. We are inclined to believe from what Professor Whewell and Major Jervis have represented, that intelligent natives are perfectly competent, under proper supervision, to these experiments, which evidently require a much larger share of patience and attention than intellectual qualifications. This conclusion is grounded on the result of some laborious, and as it may be imagined rather delicate investigations of the hourly oscillations of the barometrical tide, astronomical phenomena and vibrations of the Pendulum, in which with proper training and superintendence they have displayed an aptitude which is highly creditable.

15. It must be clearly borne in mind that while we are anxious that these important objects should be attained with the greatest accuracy, it is very far from our intention

to sanction a large outlay, nevertheless to do justice to our intentions qualified persons must be selected and prepared for the work, and the whole machinery must be set in motion and superintended by some one who not only feels an interest in its progress but has the power of controlling the parties employed, and in such capacity will regulate all his proceedings with the strictest economy. Such persons are informed by the Lords Commissioners of the Admiralty they consider Major Jervis, as he is in immediate communication with His Royal Highness the President of the Royal Society, and the Philosophers most deeply interested in these enquiries. In this arrangement we are disposed to concur, inasmuch as it will supersede the necessity of any separate charge beyond the allowance this officer will otherwise receive in his proper official capacity after his return to India.

Explanation of the subjoined Sketch (referred to in para 11 of Marine Letter to the Governor General of India in Council, No. 4, dated 12th September 1838)

This simple contrivance for registering the Tides consists of a Pole, (it may be a Coccoanut or Beetlenut Tree) firmly imbedded in the ground, to which a vertical Tube is to be lashed of 2 or 3 inches diameter, (it may be either of Tin or a straight Bamboo) corresponding in length to the rise and fall of the Tide where it may be required, and in this a Float, (either of Cork or an air-tight Tin Box) carrying a Staff marked off to feet and inches, to rise and fall with the water in the Tube.

The end of the Tube should be closed up and the sides perforated to allow the free ingress and egress of the water, while the Float within is very lightly, if ever, affected by the oscillation of the waves from without, whereby the steady progressive rise and fall of the Float is thus maintained uniformly the same under all circumstances.

It has an Index consisting of a bit of Wood, or Iron, perforated so as to admit the measuring Staff, and attached to the extremity of a wire in the prolongation of the Tube. This serves equally to guide the Staff, and keep it in a vertical position. The divisions should be marked off and commence when the water is at its mean or some standard level.

This apparatus will serve to show the greatest and least height of each successive Tide, when immediate access is precluded by stormy weather, by merely fitting two rings on the measuring Staff, one above the other below the Index, which shall move freely, without constraining the ascent of the Float, yet so as to remain on the rod wherever placed.

GENERAL ORDERS BY THE HONORABLE THE PRESIDENT IN COUNCIL.

FORT WILLIAM, 21st January, 1839.

No. 8 of 1839.—The Honorable the President in Council is pleased to publish, for general information, the following paragraphs of a Military Letter No. 4, from the Honorable the Court of Directors, to the address of the Governor General of India in Council, dated the 16th August, 1837, also paras. of Military Letters Nos. 79 and 59, dated the 18th October 1837, and 25th July 1838, addressed to the Governor of Fort William:

Letter No. 4, dated 16th August, 1837.

Para. 1. In our Military Letter to Bengal, dated the 16th April, 1829, we expressed our regret at the inconvenience to which Officers proceeding on Furlough, via another Presidency, would be exposed in being deprived of their Indian allowances from the

date of quitting their own Presidency; but that we were precluded by the Act of the 33 Geo. 3d Cap. 52, Sec. 37, from sanctioning a different arrangement.

2. In our Letter in the Public Department to the Government of Madras, dated the 20th March, 1837, we apprized you, that we considered ourselves precluded by the Act of 3d and 4th William 4, Cap. 85, Sec. 79, from sanctioning an arrangement allowing Civil and Military Servants to draw from month to month through Agents at their respective Presidencies the allowances to which they were entitled when absent on leave to the Cape or at Saint Helena, on their giving Security to refund any sum which might be overdrawn by them.

3. It is now matter of satisfaction to us to acquaint you, that by the Act of the 1st of Victoria, Cap. 12, (of which Copies have been sent with our Public Letter of the 9th instant,) such parts of the Act of the 33d George 3d and 3 and 4 William 4th, as prevented our sanctioning the two arrangements above referred to, have been repealed.

We now approve and confirm the Regulation established by your Government upon the subject first referred to, as published in General Orders of the 12th May 1826, of which the following is a copy: viz.

FORT WILLIAM, 12th MAY, 1826.

"In conformity with the rule prescribed by the Hon'ble the Court of Directors in their General Letter in the Military Department to the Government of Fort Saint George, under date the 20th of April 1809, The Right Honorable the Governor General in Council is pleased to direct that all Military Officers of the Bengal, Madras and Bombay Establishments who may proceed by permission of their respective Governments from any Subordinate Stations under the Presidency to which they belong to the Seat of Government of another Presidency for the purpose of finding a passage to Europe shall be permitted to draw Indian allowances until their departure from the Presidency to which they have so proceeded, provided no unnecessary delay in their embarkation at such Presidency shall take place."

"It is to be distinctly understood, however, that this indulgence is restricted to Officers who, from the proximity of the Seat of Government of another Presidency and the remoteness of that of their own, would suffer unnecessary inconvenience and delay if compelled to proceed to the latter for the purpose of embarking to Europe."

"As it is not intended that this Order should disturb the operation of that of the 21st January 1825, No. 21, with exception to the special case above provided for, the allowances hereby granted are invariably to be drawn by the Agent of the Absent Officer at the Presidency to which the latter belongs."

(Signed) W. CASEMENT, Lt. Col.

Secy. to Govt. Mily. Dept.

5. With reference to the second subject, viz., the issue of the absentee allowances of Officers who are absent at the Cape of Good Hope, we now empower you to frame a Regulation by which our Officers who are entitled under existing Rules to draw Indian allowances upon their actual return to India from leave of absence to any place within the limits of the Company's Charter, or the Cape of Good Hope, or the Mauritius, or the Island of St. Helena, shall be entitled through their Agents at their respective Presidencies, to draw these allowances from month to month, upon their giving sufficient security to refund the whole amount in the event of their proceeding to England without previously returning to India, or such part of the amount as may have been over issued on any other account.

6. You will take measures for introducing similar Regulations at the Presidencies of Madras and Bombay, to the Governments of which we shall send copies of the present Despatch.

Letter No. 79, dated 18th October, 1837.

Referring to our Military Letter of the 16th August last, we have now to apprise you that Officers returning to their duty on the Bengal or Madras Establishments, via Bombay, will be granted the same advantages as Officers coming to England by the same route, viz. that when their Regiments shall be stationed at posts nearer to Bombay than to the Capital of their respective Presidencies, their Indian allowances shall commence from the date of their landing at Bombay, provided that no unavoidable delay take place in their joining their Regiments.

Letter No. 59, dated 25th July, 1838.

Referring to our Military Letters of the 16th August and 18th October 1837, relating to the commencement and termination of the Indian allowances of Officers of the Bengal and Madras Establishments proceeding to, or returning from, their respective Presidencies, via Bombay, we have now to apprise you that the Officers of the Bengal Army whose Corps may be stationed at any place above Allahabad, including the Saugor Division, and the Officers of the Madras Army whose Corps may be stationed to the North of the Kistnah, are to be granted the benefits of the arrangement.

The following Extracts from a Resolution of the Government of India in the General Department, dated the 3d January 1838, containing Rules regarding Military Officers holding Civil Employ and providing for their drawing their Salaries during absence on Sick Certificate, beyond Sea, under the Act 1st Victoria Cap. 47, are also published for general information:

"Military Officers holding Civil Situations.

"7. Military Officers employed in the Civil Departments and drawing a Civil allowance are entitled in common with Officers holding Staff Situations in the Military Department to draw the Military Pay and Allowances of their rank while absent at Sea on leave under Medical Certificate, and likewise one half of the difference between such allowances and the Civil or Staff Pay of the Officers to which they stand appointed.

8. The above allowances are to be drawn for a total period not exceeding two years from the date when the vessel in which such Officers embark may leave the Presidency or other Port of departure, and the Civil Situation held by any Officer who shall not return within that period shall be considered vacant.

9. The rules for furnishing Medical Certificates and for regulating the forms and manner of drawing Military allowances during absence on leave have been laid down in General Orders in the Military Department.

10. The Civil Auditor will pass the Bills of Officers on leave beyond Sea under Medical Certificate for the portion of their Civil Salary which they are permitted to draw by those Rules in like manner as is provided for Civil Servants proceeding to Sea on Medical Certificate. But it is hereby provided that Civil allowances shall not be drawn by a Military Officer under this rule after the date of departure beyond Sea unless Security shall have been previously given in such amount as may be fixed by Government.

11. Under the authority of the Provisions contained in the latter part of Clause I Act I Victoria, Cap. 47, it is further provided in respect to all the above classes of Officers that if they embark with the permission of Government at any other Presidency than their own, or at any other place or port in India, provided that it be not more distant from their Station than the ports of their own Presidency, the date for the commencement of the operation of the above rules for sick leave beyond Sea shall be that of actual embarkation at such place or port, and not that of leaving the frontier of their own respective Presidencies, and the same privilege in respect to the date of leaving India will be granted to Officers of the several Services referred to embarking at other Presidencies or places in India not more distant from their Station than the ports of their own Presidency, with the leave of Government previously obtained for the purpose of proceeding to Europe on Furlough, or of retiring from the Service altogether.

12. In the above rules no provision is made for the case of Servants of the classes mentioned resigning the Service after leaving their Presidency with the permission of the Government in consequence of sickness. The case of such persons has been considered by the President in Council to require a new rule, which under the term of the Act requires to be submitted for the confirmation of the Hon'ble Court of Directors before it can take effect. It is accordingly declared that the Security to be given by Servants as the condition of their drawing allowances while absent from their Presidency, must provide for the case of such retirement, and the Servants must bind themselves to refund the whole of the allowances so drawn in case of their resignation and departure for Europe without previous return to their Presidency, provided that the New Rules to be established should require such refund."

FORT WILLIAM, 21st January, 1839.

No 9 of 1839.—The following paras of a Military Letter, No 80, from the Hon'ble the Court of Directors, to the Governor of the Presidency of Fort William in Bengal, dated the 24th October 1838, are published for general information.

"Para 1. It is our pleasing duty to express to you the high satisfaction which we have experienced from the receipt of the very favorable report on the discipline of the Bengal Army, contained in the General Order issued by the Commander in Chief on the 12th January 1838, as brought to our notice in your Despatch in this Department, dated the 19th February 1838,—a report which, whilst it is so honorable to the character of the Officers, both European and Native, cannot also but reflect very high credit upon the distinguished Officer who so ably discharges the important and responsible duties of Commander in Chief.

2. In compliance with the application of His Excellency, we have resolved that Mr. Kitter be restored to his rank and standing in the Bengal Army from the date of the announcement of this decision in General Orders. This resolution has received the concurrence of the Board of Commissioners for the Affairs of India as required by the provisions of the Act of St George 3, Cap 7, Sect 4 and 5.

3. We trust that the future conduct of Mr. Kitter will be of a nature to prove that he duly estimates the value of the boon now conferred upon him, and that he will learn from past experience effectually to correct that spirit of petulance and disrespect to superior authority, in the indulgence in which, he was so properly brought to trial by Court Martial.

4. We desire that the above paras be published in General Orders.

UNION BANK.

Report by the Acting Secretary of the Transactions of the Union Bank, for the half year from 1st July to 31st December, 1838.

I have to congratulate the Proprietors, on the prosperity which continues to attend the transactions of the Bank. The accounts on the table, consisting of the Trustees Account, Balance Sheet, and Statement of Profit and Loss, exhibit a full and satisfactory view of its operations, for the last half year. However, although during that period, a larger business has been done, yet in consequence of the necessary reductions made in the rates of discount, and the division of profits over a doubled number of Shares, the Dividend is less than it has been for several preceding years.

The net amount of profit realised for that period is..... Co's Rs. 3,21,990 14 7
and the undivided Surplus of the previous half year..... 22,613 12 9

Give Co.'s Rs. 3,44,604 11 4

which divided on a paid up capital of Co.'s Rs. 71,32,676, affords a dividend of 10 per Cent., (which is the same rate now paying by the Bank of Bengal,) leaving a reserved fund of Co.'s Rs. 31,902-1-0. Eleven per Cent. might now be divided, leaving a small surplus of Rs. 631, but the Directors recommend a Dividend of 10 per Cent., or 50 Rs. per share, to be made at present.

The whole of the augmented capital of January, 1838, has been taken up, and of the 40 Lac declared in July last, little more than 8 Lac remain unpaid, which amount is applicable principally to distant proprietors, who have been allowed sufficient time for completing their contributions.

A considerable increase has taken place in the number of proprietors who now amount to 410.

It is satisfactory to observe, that the circulation of the notes of the Bank has become more extended; the highest amount during the last half year being 608,884, and the lowest 306,192.

The Directors have appointed Mr. G. S. Dick to the office of the Bank's Agent at Mirzapore, and will forthwith make the necessary arrangements for his proceeding thither.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—*From the Medico-Chirurgical Review, No. 57, for July, 1838.*

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued, the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company) signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

ON THE

Medical Topography of Calcutta,

(Royal 8vo. 190 Pages, with 2 Maps. Price 5 Rs.)

BY JAMES RANALD MARTIN,

PRINTED BY ORDER OF GOVERNMENT

Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta European, Native and Foreign, Mr. MARTIN makes numerous and useful remarks which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains as it goes most minutely into all the details and ramifications of Medical Topography and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgment.

It presents an admirable specimen of what a treatise on Medical Topography ought to be. —*From the Medico-Chirurgical Review, No. 57, 1 July 1838.*

THE 28TH JANUARY, 1839.

The following Draft of a proposed Act was read in Council for the first time on the 28th January, 1839.

The existing Charter of the Bank of Bengal having been found in many respects inconvenient and imperfect, the Members of the said Corporation have by their Directors applied to the Governor General of India in Council for the amendment thereof, by a new Charter or Act of Incorporation, tendering the surrender thereupon of the said Charter, and the Governor General in Council having assented to such surrender, and to the continuance of the said Corporation as hereinafter declared;—It is hereby enacted, that from the 1st day of May next after the passing of this Act the Charter of the said Bank of Bengal bearing date the 29th May 1823, and the Acts No. XIX. of 1836 and No. XXIV. of 1838 relating thereto, shall respectively cease to have effect; and the same are hereby from that day cancelled, save as to such particulars as are herein mentioned or referred to.

II. And it is hereby enacted, that the persons who at the time of the determination of the said Charter and Acts aforesaid shall, under the provisions of the said Charter and Acts, be the Proprietors of the Capital Stock of the said Bank of Bengal, shall notwithstanding the determination of the said Charter and Acts continue to be a corporation, body corporate and politic by the name of the Bank of Bengal with perpetual succession to them and their successive Proprietors for the time being of the said Bank as hereinafter mentioned, and to possess and enjoy all the rights, privileges and immunities incident by law to a corporation aggregate.

III. And it is hereby enacted, that all property and securities for property, claims and demands whatsoever now vested in or held by the said Bank of Bengal, under and by virtue of the said Charter and Acts, shall immediately on the determination of the said Charter devolve on and become vested and continued in the Bank of Bengal, so continued and incorporated by this Act as aforesaid, and that the said Bank of Bengal so continued and incorporated as aforesaid shall be subject to all debts, demands, claims and liabilities outstanding against the said Bank at the time of such determination of its said Charter as aforesaid, and that no suit or proceeding at Law or in Equity then pending shall cease or abate in consequence of such determination of the said present Charter, and of such renewal and continuance of the said Bank by virtue of this Act.

IV. And it is hereby enacted, that the said Bank so renewed and continued shall and may sue and be sued by its corporate name aforesaid, and shall and may have and use such common seal as the Directors of the said Bank shall from time to time appoint, and shall be competent to acquire and hold either absolutely or conditionally, for a term or in perpetuity, any description of property whatsoever and to transfer and convey the same.

V. And it is hereby enacted, that the Capital Stock of the said Bank as constituted under the said present Charter and Acts shall on the determination of the same by virtue of this Act continue to be the Capital Stock of the said Bank so renewed and continued as aforesaid, provided however that it shall be in the power of the Governor General of India in Council from time to time, by resolution notified in the Calcutta Gazette, to authorize the said Capital Stock to be increased and to make such order and direction for the opening of

VI. And whereas the Capital Stock of the said Bank which by the said Act No. XIX. of 1836 was fixed at 75 lakhs of Rupees divided into 1,875 Shares of 4,000 Rupees each, has by the Resolution of the President of the Council of India in Council, issued and notified to the Proprietors on the 17th October 1838, in conformity with Act No. XXIV. of 1838 been ordered to be increased by one-half, and whereas a book is now open for subscriptions and payment is now being made of such increased capital in the manner and under the terms and conditions authorized in the said Act No. XXIV. of 1838, and prescribed in the said order and notice of the President in Council, It is therefore hereby enacted, that the Capital Stock of the said Bank shall on the said 1st May next when this Act shall take effect for the re-incorporation of the said Bank, consist of the said sum of seventy five lakhs of Company's Rupees, together with such further amount as shall on that date have been subscribed and paid into the Bank of Bengal under the order and notice referred to, and the further subscriptions and payments of Capital authorized and ordered as above mentioned shall continue to be received in the manner provided in the said order and notice of the President in Council, and shall be added to the Capital Stock of the Bank as received, accordingly as is prescribed in the said order passed under the authority of the said Act, and the Capital Stock held by the Bank of Bengal on the said 1st May next, together with the further Capital that may be subscribed and paid up as above after that date shall be divided into shares of 4,000 Rupees each, or into quarter shares of 1,000 Rupees each in the manner declared and provided by Act No. XIX. of 1836, and the shares of the said Capital that may be then registered in the name of the Governor General of India in Council, shall be the property of the said Governor General of India in Council for the time being on behalf of the East India Company, together with any new shares or quarter shares for which subscription may be made on account thereof, under the option reserved to the said Governor General of India in Council to that effect in the said order and notice, and the shares and quarter shares registered as belonging to individual Proprietors shall continue to be the property of such Proprietors, and the said Proprietors shall respectively be in the proportion of their several interests Proprietors of the Bank of Bengal as re-incorporated by this Act, and shall hold and enjoy in respect to their several shares and interests the same precise rights and privileges, as regards the subscription to fresh Stock under the order and notice referred to, as they would have done if the Bank of Bengal had continued under the Charter and Acts referred to, the re-incorporation of the said Bank by this Act notwithstanding.

VII. FORT WILLIAM,

FINANCIAL DEPARTMENT,

THE 18TH NOVEMBER, 1838.

The following revised Terms and Conditions for making Advances in India and China upon Goods and Merchandise consigned to England are published for general information, also the following paragraphs 5 and 6 of the despatch of the Hon'ble Court of Directors, dated 17th August, prescribing the same for future observance:

TERMS AND CONDITIONS

FOR
MAKING ADVANCES IN INDIA AND CHINA,
UPON

The Goods and Merchandise of Individuals intended for Consignment to England, re-payable to the Court of Directors of the East India Company.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

3. d.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....	Madras.
Ditto.....	Bombay.
Per Spanish Dollar Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose or re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to those Parties or their Agents.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whatsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1838.

5.—In future we desire that you will restrict your Advances to the great staple Articles of Indian Produce, Cotton, Silk, Sugar, Coffee, Indigo, Salt Petre and Piece Goods—and further that no Advance be made upon any Consignment the ascertained value of which shall be less than 5,000 Rupees.

6.—Several Packages of Tobacco upon which you have made Advances have been seized by the Officers of Customs, in consequence of their having been imported in illegal Packages.—Extracts from the Acts Band 4, Will. 4, Cap. 52, Sec. 58, and 6th and 7th Will. 4, Cap. 60, Sec. 4, relating to the Article of Tobacco, are transmitted in the Packet.

Medical Topography of Calcutta,
(Royal 8vo. 190 Pages, with 2 Maps. Price 5 Rs.)
BY **JAMES RANALD MARTIN,**
Presidency Surgeon and Surgeon to the Native Hospital.
PRINTED BY ORDER OF GOVERNMENT.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—From the *Medico-Chirurgical Review*, No. 57, for July, 1838.
